

Utility Trailers of New England, LLC

Promotion

Valid October 1, 2025 - December 31, 2025

- A = 11.50", B = 16.99", C = 2.00", D = 2.37", stroke = 5.49"
- Minimizes stress absorbed by frame & suspension

HENS-24088

shock absorber, standard duty,
Hendrickson

\$37.85 Each

- 28 spline-11-1/32"
- Standard and HXS brakes

HENDRICKSON

HENS-24636-1L
S Cam LH Intraax

\$41.06 Each

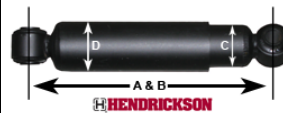

HENDRICKSON

HENS-24636-1R
S Cam RH Intraax

- 28 spline-11-1/32"
- Standard and HXS brakes

\$41.06 Each

- A = 11.60", B = 17.51", C = 2.19", D = 2.50", stroke = 5.91"
- Minimizes stress absorbed by frame & suspension

HENS-23566
shock absorber, standard duty,
Hendrickson

\$41.65 Each

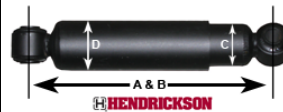

HENS-24023

shock absorber, Hendrickson

- collapsed length 11.71, extended length 17.49, stroke 5.78,
- cylinder dia. 2.75, dust shield dia. 3.25, mtg hole dia. 0.75
- app: AA230T/AA250T extended service with high damping

\$48.30 Each

- HT190T
- A = 11.59", B = 16.97", C = 2.02", D = 2.38", stroke = 5.38
- Minimizes stress absorbed by frame & suspension

HENS-20001
shock absorber, Hendrickson

\$35.54 Each

HENS-20002

shock absorber, Hendrickson

- HT230
- A = 11.60", B = 17.51", C = 2.19", D = 2.50", stroke = 5.91"
- Minimizes stress absorbed by frame & suspension

\$39.11 Each

- Collapsed length: 14.24"; Extended length: 22.48"
- Helps maintain wheel alignment; improves braking distance
- Xref: Monroe# 65503; Gabriel# 85919

PROSH85919
shock absorber, 1-5/8" bore, Pro-Par

\$47.25 Each

Utility Trailers of New England, LLC

Trailer PM Special

FREE multi-point Inspection at our North Oxford, MA or Seabrook, NH locations!

On site multi-point inspections offered for a discount rate of \$115*! (North Oxford location only)

Our Trailer Preventative Maintenance special includes:

- ✓ **Brakes:** Conduct a thorough brake inspection (drums, shoes, pads, air lines, slack adjusters, emergency and spring brakes) to check for wear, cracks, and proper functioning.
- ✓ **Tires:** Check tire pressure, tread depth, and sidewall condition.
- ✓ **Wheel Bearings:** Inspect for wear, adjust looseness.
- ✓ **Suspension:** Inspect leaf springs for cracks or shifted alignment; check air spring for dry rot or uneven inflation; examine shocks for leaks and mounting issues.
- ✓ **Coupling Devices:** Inspect fifth wheel, kingpin, and related components for rust, cracks, wear, and ensure proper locking.
- ✓ **Lighting & Electrical Systems:** Inspect all lights for functionality, check wiring harness for damage or corrosion, and ensure proper electrical connections between tractor and trailer.
- ✓ **Frame & Structural Components:** Inspect frame rails, cross members, welds, and flooring for cracks, rust, and damage.
- ✓ **Rear Door Inspection:** Hinges, rollers, track, cables and operators lube.
- ✓ **Landing Gear:** Inspect for smooth operation, bending, and lubrication, ensure the crank handle and support plates are in good condition.
- ✓ **Hitch & Safety Chains:** Inspect hitch for secure mounting, proper operation, lubrication, and check safety chains and hooks for wear and secure fastening.
- ✓ **Axles:** Inspect for straightness, alignment, and check axle beams, springs, and U-bolts for any signs of movement.

WE SERVICE ALL MAKES AND MODELS!
